

URStyleGuide library – how to include?

Insert the following command:

```
mvn install:install-file -Dfile=URStyleGuide.jar -DgroupId=com.ur
-DartifactId=StyleGuide -Dversion=1.0 -Dpackaging=jar
```

A terminal window with a dark background and light-colored text. The prompt is 'ur@ursim: ~/Projects'. The command entered is 'mvn install:install-file -Dfile=URStyleGuide.jar -DgroupId=com.ur -DartifactId=StyleGuide -Dversion=1.0 -Dpackaging=jar'. The output shows Maven scanning for projects, building a stub project, and installing the file to the local repository. It also shows the installation of a POM file. The process ends with 'BUILD SUCCESS' and some timing/memory statistics.

```
ur@ursim: ~/Projects
ur@ursim:~/Projects$ mvn install:install-file -Dfile=URStyleGuide.jar -DgroupId=
com.ur -DartifactId=StyleGuide -Dversion=1.0 -Dpackaging=jar

```

Insert the following to the pom.xml file in your project:

```
<Import-Package>
...
com.ur.style*;version="[1.0]"
...
</Import-Package>

<Embed-Dependency>StyleGuide;scope=compile|runtime</Embed-Dependency>

<dependencies>
...
<dependency>
```

```
    <groupId>com.ur</groupId>
    <artifactId>StyleGuide</artifactId>
    <version>1.0</version>
</dependency>
...
</dependencies>
```
